CARING

FROM THE FAMILY & TEEN DIRECTOR

Serving families has always been at the heart of our YMCA. As the needs of families and teens change and become more complex the support provided by the Garden City Family YMCA helps families/teens learn, grow & thrive together.

At the YMCA, we believe everyone should have the opportunity to come together as a family and enjoy time spent together. One of our main goals in our family programming is to ensure that every family can build stronger bonds, achieve greater work/life balance, and become more engaged within our ever growing community. With our teen programs, our commitment is to support teens in their passage from childhood to adulthood, as they succeed and grow up to be caring, competent, and responsible citizens of our community. We continue to make a difference in the lives of young people through each of our programs by giving them a safe and drug free environment, while they build a stronger foundation for tomorrow. We welcome you to join us in our quest for a much better tomorrow as we help build strong kids, strong families, strong communities.

Sincerely,
Krystal Richardson, Family & Teen Director
